

Since 1977 we have been a leading international reinsurer that combines global reach with local decision making to deliver first class solutions. Our customer and broker relationships are based on years of trust and experience. We have a flat organization structure that combines a strongly rated balance sheet with a willingness and ability to pay claims consistently. We operate through a network of 25 offices globally and proudly take a hands-on approach to write every product in every jurisdiction with a promise not to compete with our clients.

Our Vision is to be the first-choice provider of reinsurance to our clients worldwide. We strive to create unmatched value for our customers, colleagues, business partners, and shareholders as we contribute to the growth of sustainable, prosperous communities. We achieve this through our Core Values:

*Experience
Expertise
Accessibility
Strength
Integrity*

*The foundation of our trust-based relationships
The basis of our timely, value added insight and support for our customers
All lines of business, all over the world
An ability and willingness to pay claims
We do not compete with our customers*

We have the following job opportunity available in our **New York City** office:

2020 Summer Internship, Actuarial Department

Description

In this role, the intern will:

- Gain an understanding of basic insurance and reinsurance terminology, the underlying business we write and basic actuarial techniques.
- Participate in our quarterly analysis including assist with Sarbanes Oxley compliance and catastrophe tracking.
- Work with our financial system and learn how to look up certain features of a contract and to run various reports to assist with different projects.
- Understand, compile, and evaluate loss development triangles.
- Participate in our reserve study to gain an understanding of basic reserving concepts such as the Chain Ladder and Bornhuetter Ferguson methods.
- Assist in pricing one to two reinsurance contracts.
- Assist in annual trend and parameter studies.
- Work with 5-7 actuaries on these different projects.
- Participate in various company-sponsored programs for the summer interns.

Requirements

- Entering senior year in September of 2020
- Working towards a BA/BS in Actuarial Science, Mathematics, Finance, or any other related major
- Excellent GPA
- Proficient in use of Microsoft Excel and Word
- Passed at least one actuarial exam
- Self-motivated
- Good communication skills

Please send cover letter and resume to actuarialintern@transre.com.
