

## **Senior Actuarial Analyst**

We have the following job opportunity in our **New York City** office:

### **Description**

The Senior Actuarial Analyst will support the Actuarial Team at TransRe. Responsibilities will include but not be limited to:

- Participating in the continued development of the Economic Capital Model (ECM) risk process, the parameterization of model inputs, model execution and the presentation of ECM results
- Developing a comprehensive understanding of the reserve risk model simulation software in order to take on the lead analyst role for this risk module in the ECM
- Assisting with the annual updates to the Own Risk Solvency Assessment (ORSA) scenario modeling
- Assisting Group Risk Management team in the evaluation of the annual Budget / Planning cycle
- Providing support for various ad hoc projects and special requests
- Preparing, performing and analyzing actuarial studies, making appropriate recommendations to actuarial management
- Completing standard analyses with limited guidance, while also taking a higher-profile role in advanced analyses and special projects as needed.
- Taking an active role communicating with and preparing presentations for Actuarial management and senior management as it relates to economic capital modeling, budgets & planning and ROEs, while directly reporting to the Senior Vice President & Associate Actuary
- Working closely with various departments including underwriting, claims, finance, reinsurance, actuarial and risk management
- Using Remetrica and ResQ software systems

### **Requirements**

- Bachelor's degree in Math, Economics, Finance, Accounting or a closely related discipline
- 3+ years of experience working as an Actuary
- Must have working knowledge of a database query language such as SQL
- ACAS designation preferred
- Proficiency with Microsoft Office tools (Excel, Word, Access, etc.)
- Capital Modeling and VBA programming experience are desirable
- Remetrica and ResQ experience are desirable
