TransRe Restructures Asia Pacific Business Unit

Promotions Support Continued Regional Growth, Customer Service

NEW YORK, N.Y., July 6, 2021 – TransRe has promoted **Rob Saville** to President, Asia Pacific and **Fiona Au** to Chief Operating Officer, Asia Pacific. In their new roles Saville and Au will continue to develop closer relationships among the region’s clients and brokers, while continuing to build out synergies across TransRe’s regional offices. These changes follow the promotion of Kyle Rhodes, who has been CEO of Asia Pacific since 2019, to President, North America.

Saville joined TransRe in 2013 to open TransRe’s Singapore Branch office, where he has built out a team of very well-respected professionals and deepened our market relationships with clients and brokers across the region. In his new role, all Asia Pacific offices will report to Saville, who will remain in Singapore. Saville will report directly to Andy Taylor, President International.

Au joined TransRe in 2008 as the Hong Kong branch’s lead Actuary. In 2018, Au was promoted to Hong Kong branch manager, where she oversaw all underwriting and technical operations. In Au’s new role as COO, she will continue to manage the Hong Kong branch, as well as all technical support across the Asia Pacific region. Au will report directly to Saville and will remain in Hong Kong.

These changes reflect the changing business environment in which TransRe operates, and positions TransRe to maximize opportunities. All promotions are from within, reflecting the strength and depth of talent at TransRe.

About TransRe
