

IT Product Manager / Business Analyst

We have the following job opportunity in our **New York City** office:

Description

As a member of the IT Team, the IT Product Manager/Business Analyst will be responsible for evaluating business processes, anticipating & documenting requirements, uncovering areas for improvement, and oversight in the implementation of solutions. Responsibilities include, but are not limited to:

- Conducting meetings and presentations to share ideas, communicate status and agree on priorities
- Performing requirements analysis; documenting and communicating the results
- Working closely with business users, technicians, quality assurance and stakeholders to ensure solutions meet business needs and requirements
- Participating in and performing oversight for user acceptance testing
- Managing projects, coordinating agile project plans with development managers and business users, reporting on status and monitoring deliverables to ensure timely completion of projects
- Serving as a liaison between stakeholders, business users and development team
- Managing competing resources and priorities, multi-tasking amongst multiple projects
- Conducting stakeholder meetings

Requirements

- 5+ Years in Business Analyst and/or Product Management position
- 5+ Years in Financial Organizations
- 5+ Years in global/virtual teams with Offshore Management exposure
- Bachelor's Degree or equivalent in any major
- Master's degree in Technology or Finance
- Exceptional analytical and conceptual thinking skills
- The ability to influence stakeholders and work closely with them to determine acceptable solutions
- Ability to multi-task as well as focus on priorities
- Technologically proficient – understanding of data and programming concepts
- Excellent documentation skills with attention to detail
- Experience creating detailed reports and giving presentations
- Competency in Microsoft applications including Word, Excel, PowerPoint
- Excellent planning, organizational, and time management skills

Preferred Skills

- Agile, and Design Thinking
- BI tools
- Microsoft Teams
- Visio and flowcharting processes
- MicroStrategy, ThoughtSpot, Power BI, SQL
- Wireframe Design Tools

Work schedule will be hybrid with approximately 3 days in the office and the remainder remote
